WET HOSE -MOBILE FLEET FUEL SERVICE

Why spend the first 30-60 minutes of every day at the fuel station? This can be an expensive proposition when you take into account the total vehicles and employee's that are impacted each day. Spending time at the fuel station doesn't make your company money, so why are you doing it?

Mobile or wet hose fuel service is a simple and convenient fleet solution that provides many great benefits including convenience, employee productivity, and time savings. With mobile on-site fueling, you can get fuel delivered to your fleet anytime, anywhere. While you sleep, your fleet can be refueled with any fuel type & DEF, leaving your fleet ready to go.

We work with hundreds of similar companies managing millions of gallons in fuel spend. When you join the Fuel Logic team, you become part of this vast partner network and start to see immediate benefits. The most obvious benefits are labor & fuel savings. Because we deliver millions of gallons, we have significant buying and negotiating power that you cannot accomplish on your own.
